

P. B. C. ACTIVITIES (Continued)

merit of some kind. In the past year we have had magicians, thrilling talking movies, cartoons, and travelogues. After the entertainment, ice cream and cake is the usual fare.

Our Hallowe'en party is always a successful event held on the Saturday night nearest Hallowe'en. Treasure hunts, peanut scrambles and movies are just a few of the events held. Oh, yes, we mustn't forget refreshments.

We have basketball teams which play in the Y. M. C. A. Church League. These boys have come through with two championship trophies in the last basketball season.

Every Monday night during the fall and spring the boys have a rifle team, which practices in the First Methodist Church. Boys can become members by learning the rifle code. Excellent guns and instruction are furnished.

Trips are run under capable supervision to various educational places. In past years we have gone to the Statue of Liberty, Empire State Building, Museum of Science, Central Park Zoo, St. George Hotel Pool, etc. Every summer a large party of club members attends Kamp Kiamesha.

The last Tuesday night in each month is reserved for the club at the Y. M. C. A. swimming pool in Newark. It costs the boys merely a dime carfare to get there. These swims are enjoyed by all.

When spring comes around the gang all get out their gloves and bats. This is when the P. B. C. baseball teams bang into action. This past year we had a midget and junior team. These boys did all right for themselves.

The club is opened on most holidays and every Saturday afternoon (2-5 p.m.) that it rains during the spring and fall.

In June the annual father and son banquet is held. All the awards are presented and exceptional outside entertainment is provided. A great time is always had by all so don't forget next year's banquet. Dad.

November is the month of our gala carnival. The boys volunteer to run booths and participate in the side show. We have "Penny on the Plate," "Hit the African Dodger" and many more.

We have Fithian Choristers and Dramatic Company. Twice a year these boys put on a swell show. This past May the boys presented "The Isle of Sunshine" an operetta written by James Fithian.

Our thrilling, death defying tumblers coached by "Doc" Loughridge give quite a number of excellent performances during the year. They are a feature attraction at all of our shows.

The club members take pride in keeping their club rooms clean and also furnish janitor service for the large Sunday School room used as gymnasium. Last year the P. B. C. members from their own treasury gave the First

Presbyterian Church \$200.00, equal to the total dues of forty club members for a year! This summer the gymnasium is being re-decorated under the direction of William Dorman and Samuel Kennedy, and the club has agreed to pay (or part cost of dry cleaning the window curtains.

SPORTS IN THE P. B. C.

They say that war time hinders most activities such as sports. We have lost a great number of boys to the service but were still going as strong as we ever did. Two championships and two trophies in one year isn't chicken feed. Right here we would like to pay a tribute to a boy probably every one in the club knows. He is the boy mostly responsible for winning these trophies. He is now known as Private Alexander MacMillan. We know you will be back "Sandy"!

Fourteen wins and only two defeats is the notable record compiled by the unstoppable junior Basketball Team. Some of the nick-
