

Fashion Fads

— *by Barbara Caruso* —

"March came in like a lion and out like a somewhat mischievous lamb." The lioness March, which gave us one day less of school, instead of bringing the weather which would give way to spring fashion, brought back the winter woolens, which will probably be seen for the last time (if spring behaves as it should.)

Highlighting-the fashion in our school this fall and winter were the paisley print man-tailoreds, sneakers, not only white, but also black and even olive drab, gray and black tinted stockings, boat neck sweaters in solid colors or black and brown and black and green horizontal stripes, pleated skirts, circle pins, and Puritan collar blouses. All these can be summarized as the "beat" or **"relaxed " look.**
