

Fashion Fads

by Marilyn Golding

Now that Spring is here Kearny High's girls are blooming in colorful Spring outfits.

This season the emphasis is on color, bright pink, bold orange, lemon yellow and kelly green head the preference lists.

Blouses mostly white or lilac, with large ruffles rimming cuffs and necklines are attracting quite a bit of attention. Many girls are sporting skirts made of cotton resembling burlap with fringes and large pockets. It's amazing but pocketbooks, some also made of burlap, are still getting larger.

Stockings are becoming lighter again. Black stockings will soon be out. Sneakers in all imaginable hues ranging from bright orange to baby blue and pink. are still the most popular type of footwear, but shoes with stacked heels and square toes are increasing in popularity.

And don't forget! To complete your new spring outfits large, chunky, charm bracelets are a must.
